

Dr. Hindman To Speak

An unusual opportunity to learn more about how to live and work with people in a group, will be offered at the San Pedro YWCA in the fall when Dr. Wilbert Hindman will be presented in an adult education series.

The course in group dynamics which will be geared to meet local needs will be given on five consecutive Tuesday evenings beginning on Oct. 11.

In an effort to fit the course to community needs, the YWCA and the San Pedro Adult school invited community leaders to make plans for the meeting. Those attending the meeting were Mmes. Carl Taylor, chairman of the Volunteer Personnel committee of the YWCA, Arnold Ecklund, president of the YWCA board, Otis Blackstone, YW staff, and Bruce Rhodes, president of the San Pedro Branch of the American Association of University Women.

Those who wish to register to be assured a place in the course may do so by calling the YWCA.

Dr. Hindman a professor of Political Science at USC, comes with a rich background in the

field having served as consultant in human relations in industry and as a former staff member of the National Training Laboratory for Group Development.

Shutterbugs to Find Ideal Subjects at Cabrillo Beach

Cabrillo Beach, the municipal strand in San Pedro, will host the third 1955 Camera Day next Sunday from 12 noon to 3 p.m., according to the Los Angeles City Recreation and Park Department.

Predicting that more than 500 shutter-clickers will participate in the Cabrillo Beach event, Camera Day Chairman Clarence Inman, the Recreation and Park Department's staff photographer, announced that an outstanding day of "shooting" is in store for them next Sunday.

Models Planned

Facing the array of cameras, ranging from simple box devices to expensive, intricate imported outfits, will be 20 feminine "photo-lovelies" clad in bathing suits; skin divers; and an "ancient mariner," who will pose while gripping a huge ship's wheel, Inman reported.

The Cabrillo Beach Camera Day will get underway with a "parade of models" in front of the lifeguard headquarters at 12 noon. Skin divers will serve as "targets" along the breakwater's rugged rocks and in Cabrillo Beach Marine Museum's highly realistic "dry" underwater cavern from 1 to 2 p.m., and from 2 to 2:30 p.m. Shutterbugs can train their lens

at a group of daring water skiers as they perform thrilling jumps offshore.

Shutterbugs Paradise
Other "picture-perfect" settings next Sunday will include sailboats in the water near the breakwater, a rowboat on the ocean-washed sand, a Hawaiian scene, fish nets, huge rocks, and "Gay Nineties" lads and lassies attired in bathing suits typical of that era.

Chairman Inman announced that all pictures taken at Cabrillo Beach next Sunday will be eligible for entry in the Recreation and Park Department's fourth annual Camera Day Contest. Photographers must register next Sunday at the official information desk to qualify their prints and slides for the competition, Inman warned.
